

Dear Participant:

The Sprinkler Fitters and the NASI Welfare Fund have partnered with Health Gauge to provide healthcare screening at NO COST TO YOU.

Who is eligible to participate?

All eligible NASI Welfare Fund Participants, eligible spouses and dependents 18+, and eligible NASI Welfare Fund retirees and beneficiaries (both pre-Medicare and Medicare).

Date and Location.

Friday, January 31 st , 2025	12:00 PM - 7:00 PM	UA 601 Steamfitters	6310 Town Center Dr Madison, WI 53718
Saturday, February 1 st , 2025	8:00 AM - 3:00 PM	Plumbers & Steamfitters Local 400	2700 Northridge Dr Kaukauna, WI 54130

How do I participate?

Step 1: Call Toll Free 515-244-3080 to schedule your health screening appointment.

Or schedule online at <https://NASI.hgscreenings.com>

Step 2: Attend your onsite health screening at the scheduled time.

IMPORTANT: Fasting is NOT required.

Step 3: Ultrasound Results will be provided the day of the event.

Bloodwork and Biometric Reporting will be available within 10-14 business days.

What should I expect the day of the screening?

Screenings will be completed in under an hour. When you arrive at the screening, you will be greeted by a Health Gauge staff member. The staff member will check you in. The confidential health screening will include biometrics, such as height, weight, waist and hip measurements, resting pulse, and blood pressure. Non-invasive ultrasound screenings will be performed to identify blockages in the neck, abdomen, and legs. These blockages can lead to stroke and various cardiovascular conditions that can be life threatening and debilitating if left undetected and untreated. Additionally, a comprehensive blood draw will be completed.

These tests are not meant to replace your Primary Care Physician, but are meant to improve communication with your Physician at your next appointment.

The Fund Office sincerely hopes the program will provide convenient access that will allow you to take advantage of this benefit.

Please refer to the attached informational flyer to obtain more details or simply contact Health Gauge at (515) 244-3080 for additional information.

Sincerely,
The Fund Office

YOUR HEALTH IS OUR PRIORITY

FASTING IS OPTIONAL NOT REQUIRED!

ULTRASOUND

Carotid Artery

Visualizes the buildup of fatty blockage in the carotid arteries. This condition causes the majority of strokes.

Peripheral Artery Disease (ABI)

Checks for blockages in the legs. Abnormal results indicate high risk of coronary artery disease and peripheral arterial disease

Abdominal Aortic Aneurysm (AAA)

Visualizes the existence of an aneurysm in the abdominal aorta, that can rupture and be fatal.

BLOODWORK

Biometric Screening and Bloodwork

Height/Weight

Waist circumference

Body Mass Index (BMI)

Blood pressure

Lipid Panel with glucose

Full Chemistry Panel - Provides high level evaluation of the body's major organ functions

Hemoglobin A1c - Average blood sugar (glucose) last 3 months

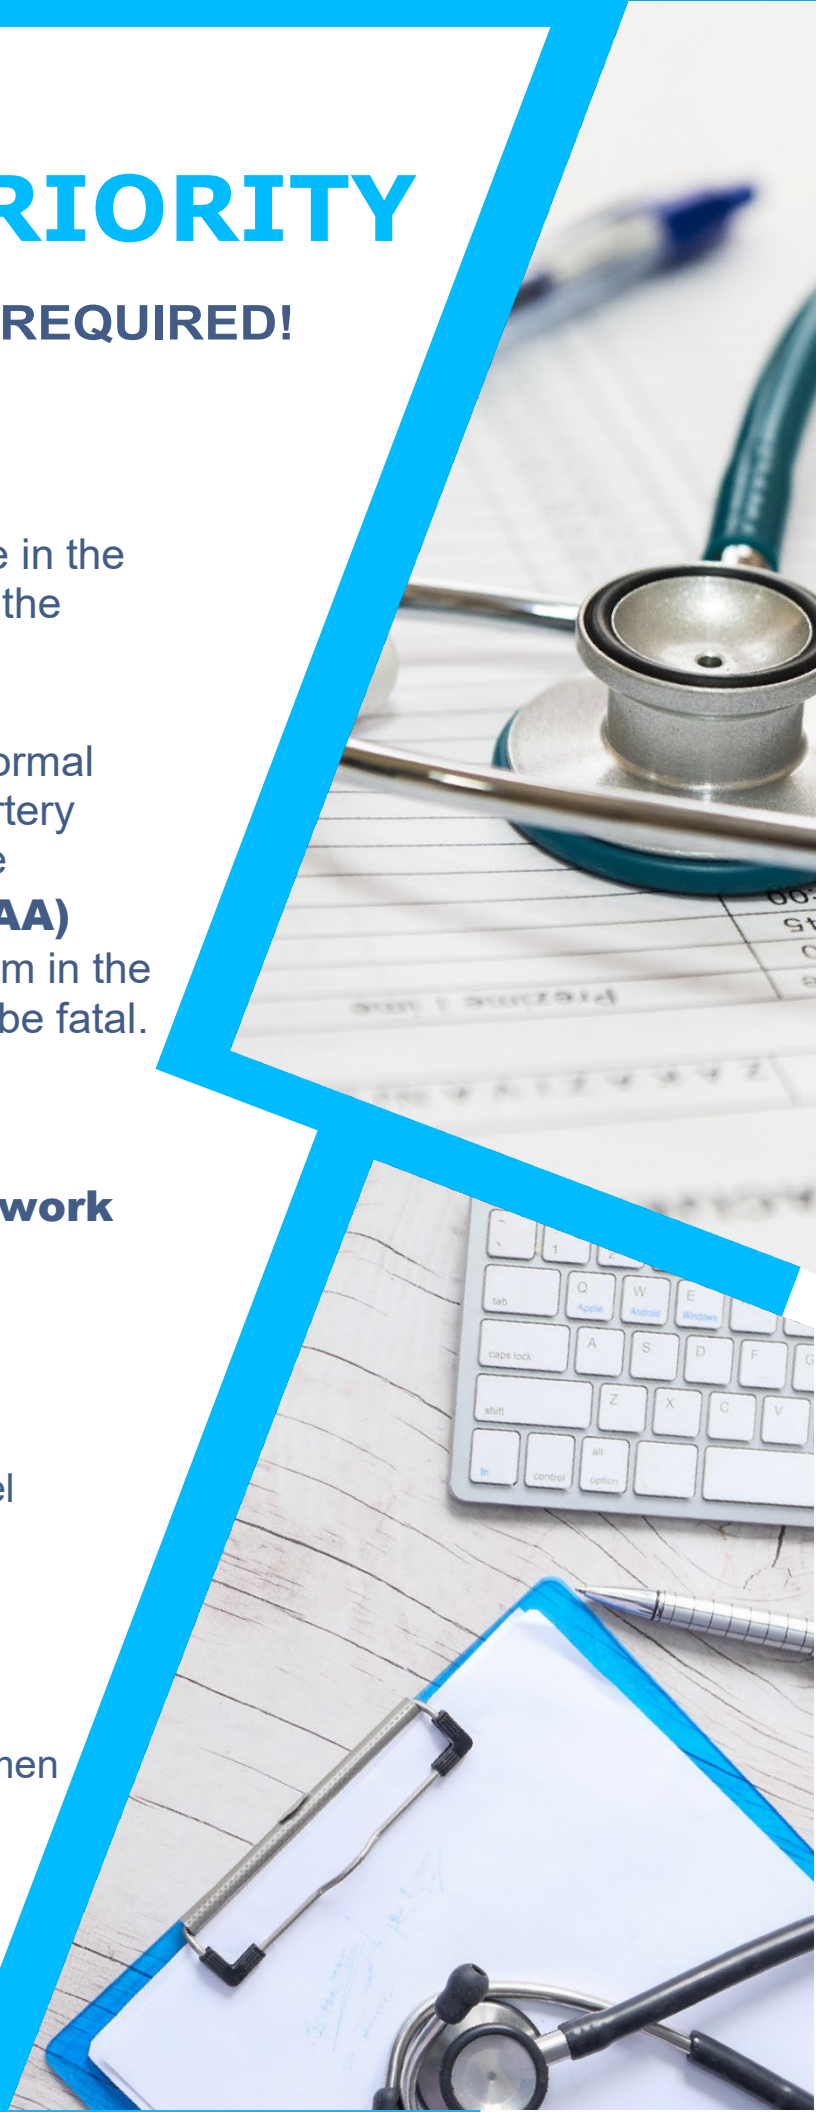

Prostate Specific Antigen (PSA) Men

Thyroid Stimulating Hormone (TSH) Women

Christopher Neels – NASI 692 Member

“I am a 39-year-old member and I have been blessed with perfect health. I never go to the doctor, I felt perfect. It took my coworkers strong encouragement to make me come to the screenings. My screening was going perfect. There was no wait. I literally walked in, finished my paperwork, had my blood drawn and was at my last station for the ultrasound testing. The technician sat me up and asked if I was feeling okay? He stated that my heart rhythms were irregular and extremely fast, “looks like atrial fibrillation”. He gave me the pictures he took and told me to go to my doctor immediately. I saw the doctor and was eventually sent to the ER and had to have the cardioversion. It was a success and my heart is back in normal rhythm. I had no idea that I was a literal ticking time bomb. These screenings were so quick, convenient and comprehensive. Please don't miss your opportunity when these screenings are offered at your local. It may save your life, it saved mine!”
